

EDI/Rapid Data Entry

EnCore EDI and Rapid Data Entry functions eliminate inefficient manual processes to boost productivity, insure greater accuracy, and speed. All your HIPAA 837 transactions are handled smoothly and efficiently.

EnCore Offers:

- ❑ RDE (Rapid Data Entry) provides a fast and efficient way to enter paper claims data
- ❑ EDI capability for both inbound and outbound transactions
- ❑ Interface with the Blue Cross/Blue Shield ITS system
- ❑ Interface into the claims system for batch adjudication
- ❑ Sophisticated editing process for claims that need manual intervention

EnCore Advantages:

- ❑ Improved accuracy and turn around time of claims
- ❑ Rapid Data Entry screens mimic HCFA 1500, UB92 and Dental claim forms
- ❑ User friendly solution
- ❑ Claim entry time is reduced from conventional processing
- ❑ Cost-effective alternative to highly skilled claims adjusters performing data entry level tasks
- ❑ Increased productivity

EnCore Incorporates:

- ❑ Axiom Systems HIPAA Maxim solution
- ❑ Data Junction Enterprise with HIPAA spokes
- ❑ Interface into the claims system to accommodate eligibility and provider verification
- ❑ Claims archiving of RDE files
- ❑ Management reports
