

Medical Management

Enter and track authorizations, manage a “case” and perform concurrent review with EnCore Medical Management solutions. Medical Management processes are integrated with the core EnCore claims management system to alert claims and customer service personnel to newly filed authorizations and/or member cases. EnCore Medical Management solutions bring new levels of efficiency and productivity for your case management team thereby enabling them to deliver superior customer service.

EnCore Offers:

- ❑ Authorizations with automated claim/authorization match
- ❑ Actual IP days or OP occurrences tracking
- ❑ Maximum approved dollar amounts by procedure or type of service
- ❑ Case Management that tracks episodes of illness
- ❑ Concurrent review
- ❑ The ability to actively manage medical costs

EnCore Provides:

- ❑ Support for all types of care provided during a treatment episode
- ❑ The ability to analyze the effectiveness of cost containment measures
- ❑ A flexible system for tracking large case management opportunities
- ❑ A method of measuring both units and dollars saved by the certification process
- ❑ A total Managed Care solution

EnCore Incorporates:

- ❑ Multi-level help resources
- ❑ Unlimited notepad capabilities
- ❑ Length of stay table integration
- ❑ Parameter based system design
- ❑ User defined coding conventions
- ❑ Ad Hoc reporting
